

TH6-SERIES LED INDICATOR & PUDDLE LAMP

INSTALLATION INSTRUCTION

Note: Installation by a professional electrician is highly recommended

1. Colour match painted is highly recommended before installation of both indicator and puddle lamp into the mirror housing. This not only enables ease of painting but ensures protection of the lighting components.

Photo 1:
Position both the indicator lamp and puddle lamp in their respective sockets in the mirror housing

Photo 1

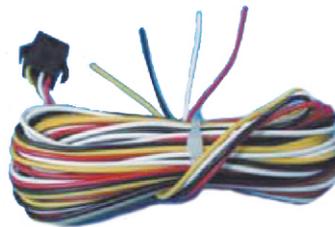

Photo 2:
1. Place the round edge of indicator lamp in the mirror housing and apply downward pressure until it clicks into place.

Photo 2

2. **Caution:** Ensure correct lamp is installed in its designed position. Place the puddle lamp into the aperture provided under the mirror housing and apply the same downward pressure.

Caution: When power fold function is operative, the mirror housing will move and could apply unnecessary strain on cables, Please keep adequate tolerance of cable length to avoid the power folding motor brake down by unnecessary strain on cables.

WIRES FOR LED INDICATOR AND PUDDLE LAMP

1. Indicator Lamp: **red (+)** and **white (-)**, must connect with the correct circuit of the indicator lamp.
2. Puddle Lamp: **yellow (+)** and **black (-)**, must connect with the correct circuit of the roof lamp. When open the door, this lamp lights on the ground.
